Food Service Managers:

Food Service Manager levels are based on a combination of education and meal participation factors, plus completion of the Food Service Manager Intern Training Program.

As per the AFSCME and M-DCPS collective bargaining agreement ratified by the School Board effective March 13, 2019, below is the meal participation criteria and approved college credits required for each food service managerial classification:

AFSCME Contract APPENDIX III, Section O., Part 1.

Manager Classification	Approved College Credits	Meal Participation
Food Service Manager I (Job Code 5701)	6	300-600
Food Service Manager II (Job Code 5702)	21	601-1000
Food Service Manager III (Job Code 5710)	33	1001+

Manager levels will be based on the current year's average meal participation determined as of the fall FTE count. A districtwide analysis of the average meal participation at each school will be reviewed for the time period prior to the fall FTE count. Resultant changes in the manager levels will be effective as of the first pay period following the fall FTE count.

Following the districtwide analysis, a request to review average meal participation and/or official college transcript for re-classification of a managerial level may be done by completing and submitting the [attached](#) document to the assigned Food and Nutrition Supervisor. If applicable, updated (sealed) official transcript should be included. Requests may be made submitted from October through April.
