Creating A Plastic Free Culture!

Cafeteria Culture and Urban School Food Alliance (USFA) invite you to participate in plastic free lunch day!

Together, we will eliminate or reduce single-use plastic foodware in school cafeterias to protect student health and the environment. It is our hope that one plastic free day leads to another...!

What is Plastic Free Lunch Day?

A day when school lunch is prepared without plastic!

An action day to reduce as much plastic as possible.

A way to protect the environment and student health.

Provide a glimpse of a plastic-free school cafeteria future.

Connect with students everywhere, who are taking climate action in their cafeteria.
